

## Lesson 0424

Video/CD Title: In What We Do, We Will Continue To Do  
Disc Start Time: 00:00

Author: Troy Brewer  
Disc End Time: 24:44

**Discussion 1:** Sometimes, God tells us to change the way we have been doing business, gives us new direction, or changes our path.

**Drill Down 1:**

- Share a time in your life when God told you to change something in your life but you stayed with what you were doing. Please include what you were doing, the change God directed you to, and the way God was communicating this change.

---

---

---

---

---

---

---

- How did that work out for you?

---

---

---

- Share a time in your life where you got yourself involved in something that turned out to be “not your assignment.”

---

---

---

- How did you figure out that this was “not your assignment”?

---

---

---

## Lesson 0424

**Discussion 2:** Sometimes, we discover that we are fighting the wrong battle.

**Drill Down 2:**

- Think for a few minutes about the battles (or lack of engagement) you have been fighting against New Name Ministries. Now consider these battles in the light of what brought you to New Name. At some point you probably told yourself that God opened the door for you to come to this ministry. Unless God is just jerking you around, why are you in this battle?

---

---

---

- What battles have you found yourself in or have you been fighting engaging in the process at New Name?

---

---

---

- What battles should you have been fighting instead?

---

---

---

**Discussion 3:** Because you are a son of the Most High God, you have power in your life to make right choices. If you live a powerless life, you are a victim. Victims do not take responsibility for how they think, how they act, or how they live. They hold everybody else responsible for how they think, how they act, and how they live.

**Drill Down 3:**

- Share a time in your life when you were powerless and held others responsible for how you thought, how you acted, or how you lived?

---

---

---

- Share any evidence in your life now where you lack power because you find yourself blaming others for how you are thinking, how you are acting, or how you are living?

---

---

---

---
